STATE FIRE MARSHAL  
ARCHITECTURAL SECTION

Ref: AUTOFRY Ventless Deep Fryer

Dear Mr. Anderson,

This office is in receipt of your letter of May 15, 1998 which references the AUTOFRY fully enclosed ventless deep fryer. Research of our files indicate that Larry Moloney, Vice President of Operations of Motion Technology corresponded with this office in June, 1997, providing documentation on this product, to include UL listing documentation under UL197.

After investigation of the product specifications and UL197 requirements, this office granted permission for use of the AUTOFRY within the State of Louisiana on June 17, 1997, under the provision that it is (1) installed as per manufacturer's requirements, and (2) the suppression system is properly inspected, serviced, and tagged as per Louisiana State law.

Though this office cannot recommend particular products, it is obvious that enclosed ventless deep fryers meeting UL197 meet a need of many commercial food preparation operations. The information you have provided will be maintained on file with the product specifications/UL listing documentation.

Sincerely,

*Pat Slaughter*  
Pat Slaughter
