

## Stay Safe Against the Coronavirus

**MAINTAIN PHYSICAL DISTANCE**  
Even if you feel well, stay at home as much as possible. In public, keep at least 6-feet distance from others. Avoid unnecessary appointments.

**PRACTICE GOOD HYGIENE**  
Wear a face mask or covering in public. Cover your cough and sneezes. Avoid touching your eyes, nose and mouth.

**PROTECT LOUISIANANS AT RISK**  
Take special caution to avoid exposing the elderly and people with underlying health conditions. Stay home when sick.

### Phase 3:

- Amusement Parks, Theme Parks, Rides
- Sports Parks, Trampoline Parks
- Fairs, Festivals, Carnivals, Circuses
- Water Parks, Splash Pads, Water Play Venues
- Children's Indoor Play Centers and Playgrounds
- Concert and Music Halls
- Similar Activities
- Haunted Houses

**\*Refer to guidance provided for Pool Halls, Bowling Alleys, Skating Rinks, and Arcades for use of these facilities.**

**\*Refer to guidance provided for Sports and Activities and Racing Events for use of these facilities.**

**\*Refer to guidance provided for Outdoor Play Centers and Playgrounds for use of these facilities.**

**START DATE: To Be Determined - Contingent upon satisfaction of the requirements outlined below.**

**NOTE: Updated guidelines apply to all facilities whether currently reopened or future planned.**

## **UPDATED September 15, 2020**

The Office of State Fire Marshal is providing this update in conjunction with the Office of the Governor and the Louisiana Department of Health to keep you up to date with additional information and/or changes as it becomes available during our battle with COVID-19. These notifications are issued automatically and immediately to those who sign up through “OpenSafely” (<https://opensafely.la.gov/>).

Every attempt is being made to highlight critical changes that have occurred since the previously published notification for your convenience. However, please read through this entire document in context as these changes do not stand on their own and all of the additional general information and clarifications made may not be highlighted.

### **Preface:**

This phasing plan applies to those non-essential businesses that have been affected by the COVID-19 stay-at-home order. Essential (critical) infrastructure businesses are not further restricted by these new guidelines and may continue to operate under the current guidelines that are applicable to the specific business. Refer to: [https://gov.louisiana.gov/assets/docs/covid/Essential-Infrastructure\\_fact-sheet.pdf](https://gov.louisiana.gov/assets/docs/covid/Essential-Infrastructure_fact-sheet.pdf) for specific information regarding critical infrastructure businesses.

COVID-19 is a highly contagious and deadly disease. The fundamental concept of this phased opening plan is to slowly open businesses at reduced occupant capacities that will allow for social distancing and circulation to keep employees and patrons safe. Everyone’s cooperation is critical to the success towards defeating this disease and revitalizing our economy.

The virus spreads primarily through person-to-person contact, from droplets that are formed by coughing, sneezing or other projections, or by touching infected surfaces and then touching one’s eyes, nose or mouth. Individuals can carry the virus and be contagious for up to 14 days prior to having any symptoms. The guidelines outlined below for social distancing, face coverings and sanitation are proven methods of mitigating these modes of transmission. **THE MOST IMPORTANT FACT** to remember is that COVID-19 is still prevalent across the state. We must all continue to do our part to help slow the spread, protect the most vulnerable and continue to remain vigilant until a cure or vaccine is widely available to provide general immunity.

**Every individual in Louisiana shall wear a face covering over the nose and mouth when inside a commercial establishment or other building or space open to the public, whether indoor or outdoor.** Refer to guidance provided for the Face Covering Order for specific information regarding Proclamation Number 89 JBE 2020.

Below are a few additional public health recommendations to help businesses comply:

- See the Face Covering Guidance section below for a link to instruction on the proper use of face coverings.
- See the Referenced Documents section below for LDH's downloadable "thank you for wearing a mask" poster options 1 and 2 for business storefronts;
- Screen customers for symptoms before entry;
- Move to reservation systems to discourage congregating in groups while waiting for service;
- Adopt sick leave policies that reduce the disincentive for employees to try to come to work sick; and
- Allow employees in high-risk groups or who directly live with/care for a high-risk individual to work in areas without direct public contact.

#### **Guidance:**

The business venues listed above must adhere to strict mitigation standards and social distancing measures to prevent the spread of COVID-19. When possible, maintain at least 6 feet of separation from other individuals not residing within the same household. Other measures such as face covering, hand hygiene, cough etiquette, cleanliness, and sanitation should be rigorously practiced. **Individuals 65 years or older, people of all ages with poor control of medical issues like high blood pressure, heart disease, obesity, or a weakened immune system are at a higher risk for getting very sick or dying from COVID-19 and should strictly adhere to all CDC guidelines, and are encouraged to remain home as much as possible.** The specific requirements and guidelines for this industry during this phase are listed below. These requirements and guidelines supplement and do not replace any directives or guidance provided by other state agencies, boards and commissions, or other authorities having jurisdiction. Where conflicts occur, the stricter of the requirements will apply.

#### **Limitations:**

- **Owners or Operators** of the above referenced businesses may submit a proposed **reopening plan with specific proposals for occupancy and sanitation to the State Fire Marshal for consideration, in consultation with the Louisiana Department of Health.** The plan shall specifically identify the method of ensuring compliance with the Occupant Capacity, Social Distancing and Safety Rules, management and staff guidelines, the cleaning guidelines for the areas that are outlined below, with the additional guidelines provided in OpenSafely for specific use areas, and the following:
  - Food service areas, if provided, shall comply with the **Phase 3** guidelines for Restaurants, Cafes and Coffee Shops. Document compliance with the seating arrangements and additional guidance provided in that guidance.
  - Provide the registration number for the business or venue that is issued to you through "OpenSafely" (<https://opensafely.la.gov/>) with your request.

- Plans are to be emailed to [SFMDispatch@gmail.com](mailto:SFMDispatch@gmail.com) for review by the Office of State Fire Marshal and the Louisiana Department of Health. Every attempt will be made to provide a response to you within 2 business days of receipt.

**Note: Submittal of a proposed reopening plan does not guarantee approval to reopen.**

- Confined common use spaces such as jump houses, ball pits, and similar spaces where distancing between individuals and small groups is not practical, or where surfaces that are subject to frequent touching cannot be regularly sanitized, shall remain closed during this Phase 3 period.

#### **Occupant Capacity:**

- **Subject to reopening plan approval**, the occupant capacity for any event or venue during the Phase 3 period is limited to the following requirements and by the ability to maintain a minimum of 6 feet of social distance between individuals and small groups. Specifically;
  - Outdoor events and venues, such as amusement parks, theme parks, sports parks, fairs, festivals, and carnivals shall be limited to the stricter of the following:
    - No more than 250 persons in any single outdoor space where individuals who are not immediate household members are unable to maintain strict social distancing of six feet from others.
    - One person per 30 square feet of net usable area within the fenced-in or contained area.
  - Indoor venues, such as circuses, trampoline parks and concert and music halls shall be limited to the stricter of the following:
    - A maximum of 250 persons in any single indoor space at the same time.
    - One person per 30 square feet of net useable floor area. The floor area used for displays or attractions shall be excluded from the net useable floor area for occupant capacity calculation.
    - Shall not exceed 50% of the normal capacity as established by the Life Safety Code for the specific use of each space, or as posted by order of the State Fire Marshal.
    - Fixed seating shall be reduced to 50% of normal capacity, or to 250 seats, whichever is less. Seating shall be assigned in a manner that will allow for 6-feet of separation between non-related groups.
  - Amusement rides:
    - Open-air ride seating arrangements shall allow for 6-feet of separation between non-related groups.
    - Enclosed rides shall limit occupancy only to related small groups of 6 persons maximum.
  - Outdoor water parks, splash pads and water play venues:
    - Limited to a maximum of 250 persons where strict social distancing of 6 feet between individuals who are not of the same household cannot be maintained, or 1 person for every 60 square feet of available deck space within the aquatic venue, whichever is less. The water surface area and the area of the attractions or other adjacent buildings shall not be included in the total available square feet for this purpose.

- Children's indoor play centers and playgrounds:
  - A maximum of 250 persons in any single indoor space at the same time, or 1 person per 30 square feet of net usable space within the designated area, whichever is less.
  - Shall not exceed 50% of the normal capacity as established by the Life Safety Code for the specific use of each space, or as posted by order of the State Fire Marshal.
  - The area of play equipment or attractions shall be excluded from the net useable area for occupant capacity calculations.
  - Minors under the age of 15 shall be accompanied by a parent or guardian of at least 18 years of age who shall remain inside the facility at all times. The parent or guardian shall be included in the total allowed capacity.
- Haunted Houses:
  - The guest capacity within any structure shall not exceed 25 at any one time, exclusive of staff.
  - The maximum group size shall not exceed 6 related guests.
  - The maximum occupant load including staff shall not exceed 50 people, or one person per 30 square feet of net useable floor area, whichever is less. The floor area used for displays or attractions shall be excluded from the net useable floor area for occupant capacity calculation.
  - General admission shall be prohibited. Advanced ticket sales or reservations are encouraged.
  - Haunted Houses shall also comply with the fire code and accessibility requirements outlined here: [http://lasfm.org/doc/interpmemos/im\\_2014-06.pdf](http://lasfm.org/doc/interpmemos/im_2014-06.pdf).
- Capacities of similar activities and accessory use spaces will be based upon the closest related activity found above, or in other OpenSafely guidelines.
- Staff who work within the facilities shall be included in the total allowed capacity.

**Social Distancing and Safety Rules:**

- Water Parks, Splash Pads, and Water Play Venues shall follow CDC guidance and OpenSafely guidelines for Swimming Pools and Aquatic Venues.
- Table and chair set-ups shall follow the guidelines for Restaurants outlined on [OpenSafely.la.gov](https://www.opensafely.com).
- Seating shall not be allowed within 6 feet of the attraction or water's edge.
- Group seating should be limited to persons who are members of the same household.
- Eliminate gatherings at entry/exit points.
- Provide hand sanitizing stations and signage that can be accessed within 75 feet of travel.
- Provide markings for queuing lines to designate minimum 6 foot spacing.
- Promote the need for social distancing through signage and media.

- Allow a minimum of 20 feet between rides, attractions, and game set-ups to allow for circulation.
- When loading and unloading children/patrons and securing seatbelts, the ride operator will do so in accordance with the rides' manual, but with limited touching of the patrons.
- Interior waiting areas shall remain closed. Waiting may be provided outside of the facility while following social distancing guidelines or persons shall wait in cars. Reservations are strongly encouraged.

**Checklist for Management:**

- ☑ Strongly encouraged to assess customers for signs and symptoms of COVID-19, including fever and respiratory symptoms.
- ☑ A minimum of one crowd manager shall be provided for every 50 attendees. Crowd managers shall be properly trained to control social distancing, enforce mask wearing (excluding while in water), and in evacuation procedures.
- ☑ Actively enforce the capacity, masking and social distancing requirements and manage the attendees' movements.
- ☑ Ensure the exterior waiting areas are not blocked.
- ☑ Maintain social distancing requirements explained in this document.
- ☑ Wherever practical, implement a reservation system, whereby patrons may sign-up to access the facility during a prearranged time-slot. Schedule cleaning breaks between time-slots.
- ☑ EPA recommends that building owners and managers take proactive steps to protect public health by minimizing water stagnation during closures and taking action to address building water quality prior to reopening: <https://www.epa.gov/coronavirus/information-maintaining-or-restoring-water-quality-buildings-low-or-no-use>

**Checklist for All Staff:**

- ☑ Check for fever or respiratory symptoms daily.
- ☑ Stay at least 6 feet from other employees and patrons.
- ☑ For water parks, splash pads and water play venues, wear face coverings while around others except while on an elevated lifeguard station that is at least 6 feet off the ground.
- ☑ Frequent handwashing is the most important hand hygiene action to stop the spread of COVID-19. Gloves are recommended when touching products, goods, money and credit cards, but are otherwise not recommended for tasks that do not normally require gloves. If gloves are worn:
  - Wash hands before putting gloves on and after removing gloves.

- Gloves should be changed between tasks, when they are obviously soiled, and after each interaction with a new individual.
- ☑ If gloves are not available, use hand sanitizer between each task and after visitor interaction.
- ☑ Clean and sanitize items frequently touched by employees.
- ☑ Clean and sanitize surfaces that customers touch often, like gate handles, handrails, chairs, etc. Current evidence suggests that SARS-CoV-2 may remain viable for hours to days on surfaces made from a variety of materials. Cleaning of visibly dirty surfaces, as well as high-touch surfaces, followed by disinfection is a best practice measure for prevention of COVID-19 and other viral respiratory illnesses in community settings. Follow the CDC guidance for proper cleaning and disinfecting. <https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/cleaning-disinfection.html>
- ☑ Clean and disinfect the restrooms regularly.
- ☒ **Do not touch the customers, except as allowed for and provided for herein.**

#### **Face Covering Guidance:**

Refer to Louisiana Department of Health guidance here:

<http://ldh.la.gov/assets/oph/Coronavirus/resources/CDC-DIY-cloth-face-covering-instructions.pdf>

#### **Steps for Cleaning Areas and Other Items:**

1. First, clean the area or item with soap and water or another detergent if it is dirty.
2. Then, use disinfectant.
  - If possible, use [EPA-registered household disinfectant](#).
  - Follow the instructions on the label to ensure safe and effective use of the product.

Many products recommend:

- Keeping surfaces wet for a period of time (see product label).
- Precautions such as wearing gloves and making sure you have good ventilation during use of the product.

Diluted household bleach solutions may also be used if appropriate for the surface.

- Check the label to see if your bleach is intended for disinfection and ensure the product is not past its expiration date. Some bleaches, such as those designed for safe use on colored clothing or for whitening, may not be suitable for disinfection.
- Unexpired household bleach will be effective against coronaviruses when properly diluted.
- Follow manufacturer's instructions for application and proper ventilation. Never mix household bleach with ammonia or any other cleanser.
- Leave the solution on the surface for at least 1 minute.

To make a bleach solution, mix:

- 5 tablespoons (1/3rd cup) of bleach per gallon of water; or
- 4 teaspoons of bleach per quart of water.

Alcohol solutions with at least 70% alcohol may also be used.

The CDC offers this additional guidance for cleaning: <https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/cleaning-disinfection.html>

**Signage Samples:**

# COVID-19 DAILY SELF CHECKLIST

Review this COVID-19 Daily Self Checklist before entering this establishment.

**HAVE YOU EXPERIENCED ANY OF THE FOLLOWING SYMPTOMS?**

- Fever (temperature over 100.4°F) without having taken any fever reducing medications
- Loss of smell or taste
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- Sore throat
- Congestion or runny nose
- Nausea/vomiting, diarrhea, loss of appetite
- Asked to self-isolate or quarantine by a medical professional or by a local public health official

SYMPTOMS MAY APPEAR 2-14 DAYS AFTER EXPOSURE TO THE VIRUS.

**If you answered yes to any of the above symptoms in the checklist, please do not enter this establishment and seek medical advice immediately.**

For more information, please visit: <http://ldh.la.gov/coronavirus> or <http://cdc.gov>.

## THANK YOU FOR WEARING A MASK.

Wearing a mask or face covering can help stop the spread of the coronavirus. Thank you for doing your part to keep our staff and customers safe.
