

Keep your home safe from fire. Put a check in front of each statement that is correct for your home.

#### **Smoke Alarms**

- ☐ There is one smoke alarm on every level of the home.
- ☐ There is one smoke alarm inside and outside each sleeping area.
- Smoke alarms are tested and cleaned monthly.
- Smoke alarm batteries are changed as needed.
- ☐ Smoke alarms are less than 10 years old.

#### **Cooking Safety**

- □ Stay in the kitchen when you are frying, grilling or broiling food.
  - □ Keep an eye on what you fry.
- Cooking area is free from items that can catch fire.
- Kitchen stove hood is clean and vented to the outside.
- Pots are not left unattended on the stove.

## **Electrical and Appliance Safety**

- Electrical cords do not run under rugs.
- ☐ Electrical cords are in good condition.
- Circuit-protected, multi-prong adapters are used for additional outlets.
- Large and small appliances are plugged directly into wall outlets.
- □ Clothes dryer lint filter and venting system are clean.

# **Candle Safety**

- Candles are in sturdy fire proof containers that won't be tipped over.
- Blow out all candles when adults leave the room or go to bed.
- Children and pets are never left alone with candles.

#### **Carbon Monoxide Alarms**

- ☐ Carbon monoxide alarms are located on each level of the home.
- □ Carbon monoxide alarms are less than 7 years old.

### **Smoking Safety**

- □ Family members who smoke only buy fire-safe cigarettes and smoke outside.
- □ Matches and lighters are kept in a locked place where children cannot see or touch them.
- □ Ashtrays are large, deep and kept away from items that can catch fire.
- Ashtrays are emptied into a container that will not burn.

#### **Heating Safety**

- ☐ The heating system is cleaned and serviced by a professional every year.
- □ Furniture and other items that can catch fire are at least **3 feet** from fireplaces, wall heaters, baseboards and space heaters.
- □ Fireplace and barbecue ashes are placed outdoors in a covered metal container at least **3 feet** from anything that can catch fire.
- Space heaters are plugged directly into a wall outlet.
- □ Heaters are approved by a national testing laboratory and have tip-over shut-off function.

## Home Escape Plan

- Have two ways out of each room.
- Know to crawl low to the floor when escaping to avoid poisonous smoke.
- □ Know that once you're out, stay out.
- □ Know where to meet after the escape.
- Meeting place should be near the front of your home, so firefighters know you are out.
- Practice your fire escape plan.
